- Need to lecture more in class–use the blackboard–explain the paradigms in copious detail–most importantly explain why it happens this way–As Mounce says Greek is fairly regular if we appreciate why things happen.
- a lot of translations
- honestly, the amount of information given at once
- the lack of review: after the test I would forget the

Miscellaneous comments

- do more work breaking down the forms of the words.
- Don’t be afraid to work us hard & expect more from us. We need to be pushed so we can be more motivated to work.
- Please start learning verbs by memorizing paradigms & repeating them as often as possible. Repetition & memorization of paradigms is the key to verbs.
- Some longer passages would be nice. (re: workbook)
